

Cultivating Success

Your Dedicated Agricultural Workforce Partner

From nursery to post-harvest — we supply workers with agriculture backgrounds across protected farms (net houses, greenhouses and glass houses) and open field crop operations throughout the UAE.

UAE

UAE-Wide Coverage

Protected farms, open fields and agri-operations across all seven emirates

100%

Nursery to Post-Harvest

Full-cycle worker supply from seedling preparation to post-harvest handling

✓

Agriculture Background

Young, active workers with hands-on agriculture experience, ready on day one

THE CHALLENGE

The Modern Agricultural Challenge

UAE farms face mounting pressure — rising demand, shrinking labour pools, and growing operational complexity. The gap between what operations need and what's available is widening every season.

50%+

Increase in global food production required by 2050

Critical

Labour shortage severity reported by UAE farm operators each harvest season

3x

More time spent on hiring and onboarding vs. actual farm management

"The farms that win are the ones that solve their workforce problem before the season starts."

OUR COMMITMENT

Redefining Farm Support

We don't just fill positions — we match the right workers to the right operation. Every worker we place has an agriculture background and is ready to contribute from day one.

Trained & Vetted

Verified agricultural expertise, hygiene awareness, and safe tool handling as standard.

Operationally Prepared

All workers are site-briefed, deployment-ready, and fully oriented to your operation from day one.

Scales With You

From a single seasonal crew to a full production team — we grow with your operation.

CORE SERVICES

Specialised Workforce Solutions

Skilled manpower at every stage of your agricultural operation — deployed rapidly, supervised consistently, and built around your site requirements.

Seasonal Harvest Support

Crop picking, planting and field maintenance teams at short notice.

Nursery & Greenhouse Teams

Seedling handling, transplanting, pruning and controlled-environment crop care.

Agro-Processing & Packing

Processing, packaging and quality control staff for post-harvest operations.

Field Maintenance & Infrastructure

Irrigation, land prep, soil management and machinery support crews.

HOW WE HIRE

Dedicated Workers. Long-Term Value.

For long-term and turnkey agriculture projects, we hire active workers with hands-on agriculture backgrounds and dedicate them exclusively to your site. No rotation, no disruption — just a committed worker who knows your farm, your crops, and your operation.

"Imagine a dedicated worker assigned to your site — gaining experience season after season, growing with your operation, and delivering enhanced productivity over time. All without adding permanent headcount or liability to your farm's P&L."

Site-Dedicated Placement

Workers are assigned exclusively to your farm or project — building familiarity with your site, crops, and workflow from day one.

Long-Term Productivity

The longer they work your site, the more valuable they become — without the overhead, obligations, or permanency of direct employment.

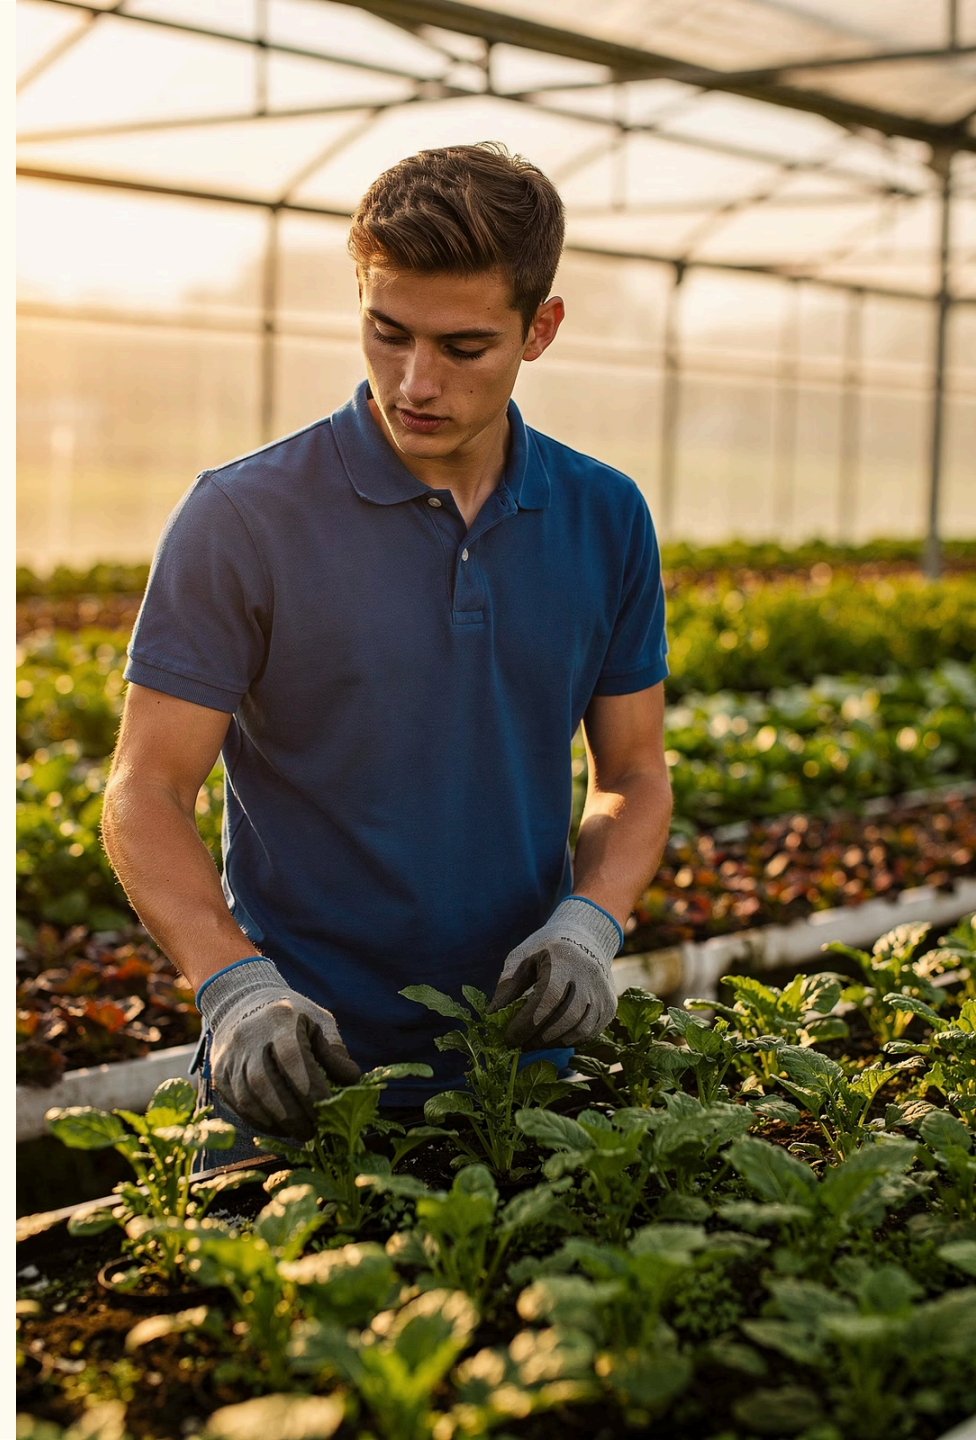

Flexible Engagement

Whether it's a seasonal requirement, a turnkey project, or an ongoing operation — we structure the engagement around your timeline and budget.

To meet growing demand, we also manage manpower supply through trusted partners via cross-hiring — ensuring continuity and availability across all project scales.

AGRICULTURE WORKFORCE

UAE

Our Agriculture Workers

Experienced. Active. Ready.

Nexora Solution Hub supplies workers with agriculture backgrounds across every stage of protected farm and open field operations — from the first seedling to post-harvest handling.

Nursery & Propagation

Seedling handling, potting, propagation and nursery housekeeping.

Transplanting & Crop Care

Transplanting, spacing, watering, weeding and pruning.

Trellising & Support

Tying crops to wire supports for airflow, light and yield.

Harvest & Post-Harvest

Picking, sorting, packing, labelling and cold-room support.

Farm Cleaning

Sanitation, floor washing, waste removal and deep cleaning.

Open-Field Operations

Bed prep, date palm support and general farm maintenance.

We hire young, active workers with hands-on agriculture experience — ready to integrate into your operation from day one.

QUALITY ASSURANCE

The Vetting Difference

Every worker we place has been screened, trained, and assessed — not just sourced. Quality is built into our process, not added as an afterthought.

Step 1: Rigorous Screening

Background checks, reference verification and work ethic assessment before any placement.

Step 2: Technical Training

Hands-on agricultural training aligned with UAE farm practices and safety protocols.

Step 3: Performance Monitoring

Regular output reviews and supervisor feedback throughout the deployment.

We don't deploy workers and disappear. Our operational support continues throughout every engagement.

WORKFORCE DEPLOYMENT

Operational Peace of Mind

UAE agricultural workforce deployment is demanding. We take full ownership — so your management team can stay focused on what matters.

Worker Readiness Management

Workers arrive site-briefed, operationally prepared, and ready to work from day one.

Operational Support

Full coordination and active support throughout every workforce deployment on site.

Deployed and Productive

We remove operational friction entirely from your daily farm operations.

Nexora Solution Hub ensures every worker is site-briefed, operationally prepared, and deployed productively within the scope of your engagement.

OPERATIONAL IMPACT

Built to Amplify Your Team

Our workers don't replace your permanent staff — they amplify them. The right people, at the right time, integrated seamlessly into your operation.

Day 1

Ready to Perform

Workers deployed and productive from first day on site

100%

Fully Supervised

Supervised and attendance-tracked throughout

OUR VALUES

Ethics, Integrity & Growth

A workforce treated with dignity and respect delivers results that go far beyond expectations.

Human-Centric Staffing

Worker welfare and fair conditions are the foundation of every placement we make.

Transparency & Trust

Clear communication, honest reporting and long-term commitment to mutual success.

Sustainable Vision

Manpower that respects the land, the communities it supports, and your farming goals.

PRECISION

RELIABILITY

TRANSPARENCY

RESPONSIBILITY

EFFICIENCY

HOW IT WORKS

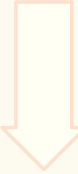

Your Success, Our Framework

Every Nexora engagement starts with understanding your operation — not assumptions. Here's how we work.

Understand

We review your site, crop cycle, workforce gaps and operational requirements in detail.

Design

A tailored, cost-efficient workforce model built around your schedule and budget.

Deploy

Vetted, site-briefed workers placed on your farm — operationally prepared and active from day one.

Coordinate

Ongoing attendance monitoring, performance support and a single point of contact throughout.

We don't quote without reviewing the scope. We don't deploy without understanding the site.

GET STARTED

Partner With Nexora Solution Hub

Your next harvest season deserves a workforce partner as invested in your success as you are. Let's build your solution together.

Share Your Requirement

Tell us your site, worker category, duration and location — we'll respond with a structured proposal.

We Build Your Team

Vetted, trained, site-briefed workers deployed on your timeline and budget.

You Focus on the Farm

We handle the people side — so you can lead with confidence and deliver with pride.
